

Sprint3 Schedule

MOM-8: As Lora (a Headhunter) or Jialin Shang (a career seeker), I should be able to visit others' profiles, so that I can better understand other people's past experiences.

- Activities/Tasks

Task ID/Description	Estimated Time	Dependencies
• MOM-75: Frontend: Visit other profile page by route	2 hrs	
• MOM-86: Frontend: Disable profile page edit when not owned by current user	1 hrs	MOM-75

- Network Graph

- Critical path: MOM-75 → MOM-86.

MOM-44: As a general user, I should be able to rate a profile by quality, so that other people can avoid the bad ones and identify the good ones.

- Activities/Tasks

Task ID/Description	Estimated Time	Dependencies
• MOM-76: Frontend: Rate other users by visting profile page	2 hrs	

- Network Graph

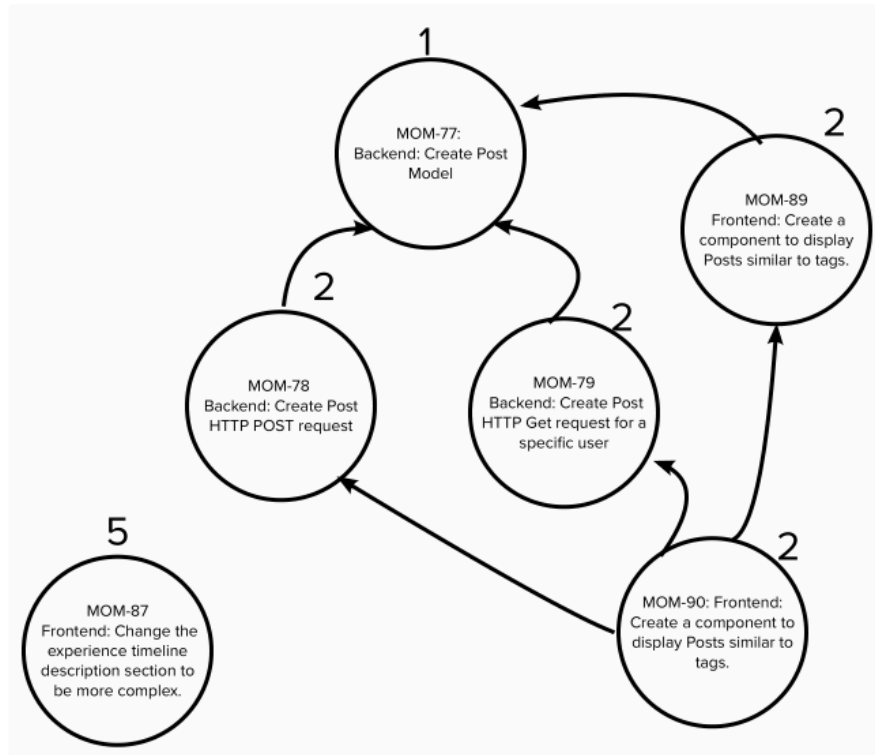

MOM-4: As Steph Delly (a career expert), I want to make new posts, so that I can share my thoughts and experiences that otherwise cannot easily fit into my profile.

- Activities/Tasks

Task ID/Description	Estimated Time	Dependencies
• MOM-77: Backend: Create Post Model	1 hr	

• MOM-78: Backend: Create Post HTTP POST request	2 hrs	MOM-77
• MOM-79: Backend: Create Post HTTP Get request for a specific user	2 hrs	MOM-77
• MOM-85: Backend: Create Post HTTP Get request for a specific post (by id)	2 hrs	MOM-77
• MOM-87: Frontend: Change the experience timeline description section to be more complex.	5 hrs	
• MOM-89: Frontend: Connect profile with post component	3 hrs	MOM-78, MOM-79, MOM-89

• Network Graph

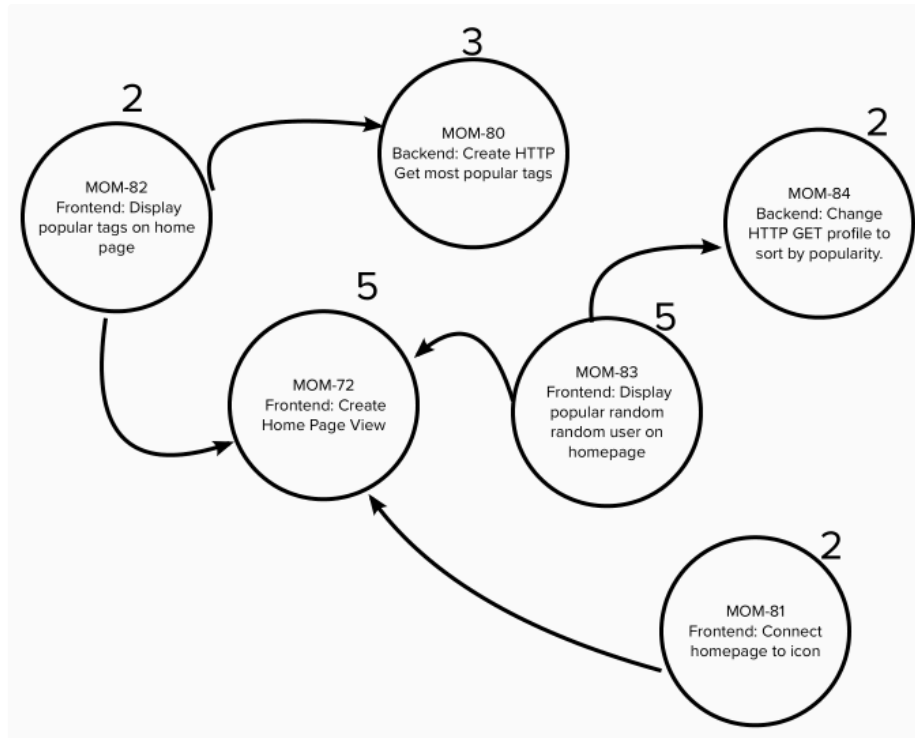

• Critical Path: MOM-90 → [MOM-79, MOM-78, MOM-89] → MOM-77

MOM-70: As a general user, I want to have a home page where I can have a search bar and recommended products.

Task ID/Description	Estimated Time	Dependencies
• MOM-80: Backend: Create HTTP Get most popular tags	3 hrs	
• MOM-84: Backend: Change HTTP GET profile to sort by popularity.	2 hrs	
• MOM-72: Frontend: Create Home Page View	5 hrs	
• MOM-81: Frontend: Connect homepage to icon	2 hrs	MOM-72
• MOM-82: Frontend: Display popular tags on home page	2 hrs	MOM-72, MOM-80
• MOM-83: Frontend: Display popular random user on homepage	5 hrs	MOM-72, MOM-84

• Network Graph

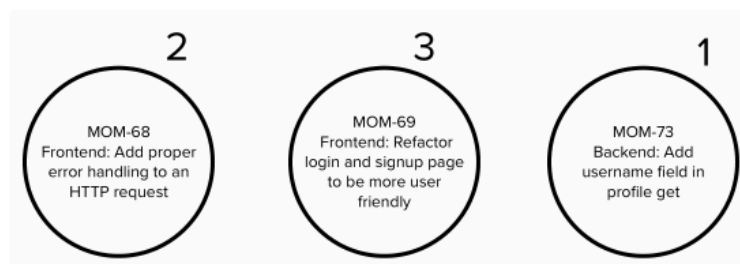

- Critical Path: [MOM-83, MOM-81] → MOM-72

MOM-71: Sprint 2 Retrospective

Task ID/Description	Estimated Time	Dependencies
• MOM-68: Frontend: Add proper error handling to an HTTP request	2 hrs	
• MOM-69: Frontend: Refactor login and signup page to be more user friendly.	3 hrs	
• MOM-73: Backend: Add username field in profile get.	1 hr	

- Network Graph

- Explanation: We are able to finish every task. We do this by listing the root of each critical paths as high priority cards on Trello so that they get finished first.
